

The Child Outcomes Summary Form (COSF) Training Consortium

The COSF Training Consortium links states and providers who are using the Child Outcomes Summary Form (COSF). The group meets by conference call or web meeting several times a year to discuss COSF training topics of common interest and to share resources.

Topics and resources from the most recent web meeting held in April:

- Updated COSF rating definitions and decision tree! Many thanks to Training Consortium members who provided input on the updates to these documents. Documents are posted on the ECO website.
- Guidance on writing evidence to support COSF ratings! Help field test a training activity to improve the documentation that provides a rationale for the rating. Contact Robin Rooney (email below).
- More training and TA resources on the ECO website! We've re-organized. Take a look at the materials under 'ECO Resources' – 'Professional Development' – www.the-eco-center.org

If you are interested in joining the COSF Training Consortium or finding out more, contact us at staff@the-eco-center.org or you may contact Robin Rooney directly at robin_rooney@unc.edu.
