Health and Welfare Building

Dear Ms. Houstoun:

I am pleased to inform you that your request for a Medicaid waiver to provide home and community-based services, as authorized under the authority of section 1915(c) of the Social Security Act, has been approved. This waiver has been assigned control number 0324 which should be used in any subsequent correspondence.

Specifically, you submitted a waiver request to provide habilitation services to children ages 0 - 3 who are in need of early intervention services and who would otherwise require the level of care provided in an intermediate care facility for mentally retarded or persons with related conditions (ICF/MR-ORC). You have also requested an effective date of October 16, 1997.

Based on the assurances and the information you provided, including the additional clarifying information in response to our concerns, I approve the waiver cited above for a 3-year period effective October 16, 1997, as per your request. With a satisfactory showing, the waiver may be renewed at the end of the 3-year period. We would note, however, that any proposed changes that would affect the policies and procedures related to the operation and/or administration of this waiver program must be formally requested by the State in the form of waiver amendments.

The following estimates of unduplicated recipients and the average per capita cost of waiver services have been approved:

Year	Unduplicated Recipients	Factor D
1	2,258	\$6,840
2	2,979	\$7,113
3	4,012	\$7,397

We appreciate the cooperation provided by you and your staff.

Sincerely,

Sally K. Richardson

g. X Habilitation:

_____ Services designed to assist individuals in acquiring, retaining and improving the self-help, socialization and adaptive skills necessary to reside successfully in home and community-based settings. This service includes:

_____ Residential habilitation: assistance with acquisition, retention, or improvement in skills related to activities of daily living, such as personal grooming and cleanliness, bed making and household chores, eating and the preparation of food, and the social and adaptive skills necessary to enable the individual to reside in a non-institutional setting. Payments for residential habilitation are not made for room and board, the cost of facility maintenance, upkeep and improvement, other than such costs for modifications or adaptations to a facility required to assure the health and safety of residents, or to meet the requirements of the applicable life safety code. Payment for residential habilitation does not include

payments made, directly or indirectly, to members of the individual's immediate family. Payments will not be made for the routine care and supervision which would be expected to be provided by a family or group home provider, or for activities or supervision for which a payment is made by a source other than Medicaid. Documentation which shows that Medicaid payment does not cover these components is attached to Appendix G.

Day habilitation: assistance with acquisition, retention, or improvement in self-help, socialization and adaptive skills which takes place in a non-residential setting, separate from the home or facility in which the individual resides. Services shall normally be furnished 4 or more hours per day on a regularly scheduled basis, for 1 or more days per week unless provided as an adjunct to other day activities included in an individual's plan of care.

Day habilitation services shall focus on enabling the individual to attain or maintain his or her maximum functional level and shall be coordinated with any physical, occupational, or speech therapies listed in the plan of care. In addition, day habilitation services may serve to reinforce skills or lessons taught in school, therapy, or other settings.

 X Other service definition

Habilitation consists of a range of services provided for the child by a qualified professional with the participation of the child's family or caregiver.

Services can be provided directly to the child while the family or caregiver is present and participating, or services can be provided as instruction to the family or caregiver to benefit the child's development in everyday life.

For purposes of this waiver, family means a parent, guardian, surrogate parent, or person acting as parent of the child. A caregiver means a person responsible for providing care for the child in the home and community, such as relative, a day care provider, or another adult at the family's discretion.

Instruction to families and caregivers is limited to service techniques, information and procedures which the family or caregiver needs to support the child's development.

Participation of the family or caregiver is based on their willingness and ability as determined by the family or caregiver, the child's multi-disciplinary team and the provider of services.

Habilitation funded under this waiver must be provided in a natural environment which means the child's home, the home of a relative or friend, or a community setting that is typical for the child's age peers where children without a disability are likely to attend.
